**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

***Claim Rejections - 35 USC § 103***

1. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).
2. Claims 1,3,6,18,19,20,22,26 and 27 are rejected under 35 U.S.C. 103(a) as being obvious over Lin et al (2005/0029701) in view of Brown et al (RE 33,161).
3. Lin et al teach all except for the immersing step to remove the dissolvable material. Brown et al teach that it is known to form porous calcium phosphate prosthetic material by forming a mass of material and then immersing in boiling water to remove the pore forming material. It would have been obvious to one of ordinary skill in the art to combine Brown et al with Lin et al because Lin et al is forming a calcium phosphate material and then impregnating the material. Lin's material is obviously porous in order that it can be impregnated. Thus it would have been obvious to include Brown's method of forming a porous calcium body with Lin's method.

Art Unit: 1732

The applied reference has a common inventor with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art only under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 103(a) might be overcome by: (1) a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not an invention "by another"; (2) a showing of a date of invention for the claimed subject matter of the application which corresponds to subject matter disclosed but not claimed in the reference, prior to the effective U.S. filing date of the reference under 37 CFR 1.131; or (3) an oath or declaration under 37 CFR 1.130 stating that the application and reference are currently owned by the same party and that the inventor named in the application is the prior inventor under 35 U.S.C. 104, together with a terminal disclaimer in accordance with 37 CFR 1.321(c). This rejection might also be overcome by showing that the reference is disqualified under 35 U.S.C. 103(c) as prior art in a rejection under 35 U.S.C. 103(a). See MPEP § 706.02(I)(1) and § 706.02(I)(2).

***Allowable Subject Matter***

4. Claims 2,4,5,7-17,21,23-25 and 28-37 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
